Reference Paper A - Algebra, Number and Ratio (O Level style)

CANDIDATE SCRIPT

Lesson: Ch2L3
Name: Reference Candidate

Question 1
4x + 7 = 31
4x = 24
x = 6

Question 2
0.36 = 36/100
= 9/25

Question 3
(a) 3(4) - 2 = 10
(b) 3n - 2 = 40
3n = 42
n = 14

Question 4

Question 5
grid:
x +3
x | x^2 +3x
-5 | -5x -15
x^2 - 5x + 3x - 15 = x^2 - 2x - 15

Question 6
12 / 4 = 3
a^5 / a^2 = a^3
b^3 / b = b^2
= 3b^2a^3

Question 7
(x - 3)(x - 4)

Question 8
2x + y = 11
x - y = 1
adding: 3x = 12
x = 4
8 + y = 11 so y = 3

Question 9
= 1/2 x 12 x 9
= 108 cm^2

Question 10

using my factors: (x - 3)(x - 4) = 0

x = 3 or x = 4

Question 11

5x - 3 = 2x + 9

3x = 12

x = 4 or 12

Question 12

150 / 2.5 = 60
